MUHAMMAD BAQER MOLLAH

University of Houston, TX 77479
• Email: m.m.baqer@ieee.org • Web: https://mbaqer.github.io/

RESEARCH INTERESTS

• Connected Autonomous Vehicles • Critical Infrastructures • AI-Native Wireless • Multimodal Learning • Large Models • Edge Intelligence • Trustworthy AI • Privacy Aware Computing • Quantum Communications and Network • Quantum Safe Systems

CURRENT POSITION

University of Houston
Dept. of Information Science Technology
Lecturer August 2026 - Now
◦ Teaching Computer Information Systems (CIS) undergraduate courses in Fall 2026: *CIS 2334 Information Systems Applications* and *CIS 3343 Information Systems Analysis & Design*
◦ Developing lectures, course materials, assignments, and hands-on activities to facilitate student learning and apply information systems concepts to real-world problems
Post-Doctoral Fellow September 2025 - August 2026
Advisor: Prof. Kyu In Lee
Lab: Smart Systems Security Laboratory (SSS Lab)
Project: USDOT Tier 1 UTC Transportation Cybersecurity Center for Advanced Research and Education (CYBER-CARE)
◦ Worked closely with students to define research directions, plan project milestones, and oversee implementation and paper writing
◦ Designed and evaluated practical end-to-end security-aware mechanisms for connected vehicles
◦ Contributing to the writing of research proposals

EDUCATION

University of Massachusetts Dartmouth Fall 2022 - Summer 2025
PhD in Electrical and Computer Engineering
Advisor: Prof. Honggang Wang, IEEE Fellow (Currently at Yeshiva University, NY)
Dissertation: On Enabling Multi-Modal Sensing and Security Techniques for Connected Vehicles
Courses Taken (Selected): Network Security, Multimedia Communications, Advanced Computer Systems, and Dependable & Secure Computing

Jahangirnagar University, Dhaka, Bangladesh 2015 - 2016
MS in Computer Science
Research Project: Secure Data Sharing and Searching at the Edge of Cloud Connected Smart Devices
Courses Taken (Selected): Artificial Neural Networks, Embedded System Engineering, Computer Networks, Mobile & Wireless Communications, Information Theory & Coding System, Distributed Systems, and Cloud Computing

International Islamic University Chittagong, Chittagong, Bangladesh 2009 - 2014
BS in Electrical and Electronic Engineering
Final Year Project: E-Police System for Improved E-Government Services in Bangladesh
Courses Taken (Selected): Electrical Circuits and Electronics, Digital Electronics, Computer Programming, Communication Theory, Numerical Analysis, Signals and Systems, Digital Signal Processing, and Control System

ACADEMIC EXPERIENCES

University of Massachusetts Dartmouth September 2022 - August 2025
Dept. of Electrical and Computer Engineering
Teaching Assistant & Research Assistant
∘ Assisted in teaching *Introduction to Engineering & Computing (Lab)* with basic programming related projects with C++ in Arduino, guided them in using introductory engineering tools, and provided one-on-one mentoring whenever necessary to address diverse learning needs
∘ Helped manage lab sessions, monitored student progress, facilitated group discussions, and provided constructive feedback to support concepts
∘ Actively provided mentorship and guidance to the student teams to the semester-end group projects
∘ Conducted research in wireless sensing and communications for connected vehicles under the NSF funded project "Enabling Machine Learning based Cooperative Perception with mmWave Communication for Autonomous Vehicle Safety"

STUDENT MENTORING

Muzamil Raheman Shaik, Master's Student, University of Houston April 2026 – Present
Research Topic: Secure Multicasting for Connected Vehicles (Accepted to IEEE FNWF 2026)

Adam Mojtaba, Undergraduate Student, University of Houston January 2026 – Present
Research Topic: Threat Modeling and Security Evaluation for Extended Reality Systems (Accepted to IEEE ICCE-Berlin 2026)

PROPOSAL WRITING EXPERIENCE

- **NSF - Collaborative Research:** CIF: Medium: Towards Fully Deep Learning-based mmWave Communications for Complex Mobile RF Environments, **PIs and Co-PIs:** Prof. Honngang Wang, Prof. Hua Fang, Prof. Hamid Sharif, UNL, **Status:** Not funded, **My Contribution:** One research thrust out of three in total.

RELATED TRAINING

Cybersecurity & Career Readiness April 2026 to May 2026
Stevens Institute of Technology, NJ, USA
Supported by: National Institute of Standards and Technology (NIST).

CyberSTAR – CyberTraining for Secure Transportation and Reliable Autonomy June 22 to June 24, 2026
George Mason University, VA, USA
Supported by: National Science Foundation (NSF)

SKILLS

Linux/Unix based operating systems (e.g., Ubuntu, Kali), Embedded systems (e.g., RPi, Arduino), Networking tools, Virtualization, Ethical hacking, SQL, Python, MATLAB, Deep learning, PyTorce.

SERVICES

Web of Science Public Profile: https://www.webofscience.com/wos/author/record/T-4705-2019

Chair: Special Session on *Cyber Resilience for Trustworthy Connected Consumer Mobility* at IEEE 45th International Conference on Consumer Electronics (IEEE ICCE 2027), 8-11 January 2027, Las Vegas, NV, USA.

Reviewer for Journals/Magazines: IEEE Communications Magazine, IEEE Network, IEEE Wireless Communications Magazine, IEEE Wireless Communications Letters, IEEE Transactions on Mobile Computing, IEEE Transactions on Industrial Informatics, IEEE Transactions on Intelligent Transportation Systems, IEEE Internet of Things Journal, among others.

Technical Program Committee (TCP) Member: • IEEE International Conference on Communications, Control, and Computing Technologies for Smart Grids (IEEE SmartGridComm) 2025 and 2026, • IEEE Vehicular Technology Conference (IEEE VTC) Fall 2026 and Spring 2027, among others.

EasyChair Webmaster: The 33rd International Conference on Computer Communications and Networks (ICCCN 2024), July 29 - 31, 2024, Big Island, Hawaii, USA.
